[Power and Sailing Boats](#)

[Superyachts](#)

[Accessories](#)

FEATURES

- Provides the versatility of operating two anchors from one winch.
- Rope hauling from any direction using independent MAX-grip™ warping drum with clutch disengagement of chainwheel.
- Permits use of traditional shackle and thimble rope and chain connection.
- Possibility of an alternative horizontal mounting inside chain locker for below deck installation.
- High-quality finish on above deck components. Heavy chrome over marine-grade alloy bronze.
- Cone type brake/clutch mechanism permits manual “free-fall” anchoring.
- Cone clutches, unlike dog clutches, provide smooth progressive engagement ensuring safe operator control.
- Chainwheel locking pawl (except 500 Series).
- Simplified through deck installation by modular design and precise alignment of gearbox to the topworks utilising marine-grade stainless steel studs.
- Marine-grade alloy gearbox housing, finished with a two coat paint system.
- Heavy duty, dual direction motor, designed for marine winches.
- Easily disassembled for servicing.

Standard equipment

Circuit breaker/isolator panel
Footswitch (supplied with DC units only)
Chainwheel to suit chain sizes specified
Emergency crank handle and clutch control lever (except on VW500)

Options

Additional footswitches, Dual direction solenoid pack
Remote controls, Hydraulic motor
Traditional bronze finish, Chain Stopper*
Wide Mouth Chainpipe, Extra deck clearance kit

Net Weight - Hyd	N/A N/A	15kg 34lbs	15kg 34lbs	31kg 68lbs	40kg 88lbs

** Winch performance when hauling rope with capstan.
Chain speed may vary depending on size of chain and gy/psy.

*Important: Maxwell windlasses must be used in conjunction with a chain stopper or snubbing device to take the load off the windlass while laying at anchor. The chain stopper and alternative snubbing system should also be used to secure the anchor in the fully raised position while under way.

SCROLL BAR

Wide Mouth Chainpipe for use with a VW Series windlass to feed the rope and chain below deck. Wide Mouth Chainpipes are designed to easily allow the eye splice and shackle to pass through.
